Class Level Classification

First Timers (New to Line Dancing) Level 1:
Starting from the very basics, great for first timers. Focusing on the steps & terminology you need to get you on your way! All students new to Line Dancing must enrol for a beginner course if you are looking at attending one of our privately run classes.

Following on from "First Timers Level 1". You would attend the levels in the following order;

*Please note all classes/venue are run slightly different to accommodate different needs of each student attending.

Level 1.5: Low Improver (Incl High Beginner)
Level 1, 1.5 & 2: Fun Honky Tonk
Level 2: Improver
Level 2.5: High Improver / Easy Intermediate
Level 3: Intermediate

Where a class shows split levels during the one class time slot, that class will start of easier and progress to the harder routines which is great if you are looking at moving up—start with the first half of the next class to build your confidence.

Fun Honky Tonk offer "have fun & dance" style format. Covering everything to allow you to let your hair down, including Bar Style Honk Tonk Routines

New "Plus" Level Classes, run a little quicker than standard classes as most students have already attended a class (or two) that week. They will still do the same routines, but at a quicker pace.

Please note that the pace each class will be defined by the advertised level. The routines taught aren't limited to that level; They may be easier or harder than said level. However, they will be taught at a speed suitable for each level.

Free classes: Due to the number of casual walk-in students each week, you will still receive the same great lesson and instruction, however you will be required to do a little more 'homework' to practice each routine taught.

Ringrose Primary School Hall
